Registration number 09-09-1908T

Executive Director:
Pamela A. Popper

General Information

School Calendar for 2022:

Legal holidays observed by the school are:

- New Years Day
- Martin Luther King Day
- Good Friday
- Passover (one evening and one day only)
- Memorial Day
- July 4
- Labor Day
- Thanksgiving and the day following
- Christmas Eve
- Christmas Day
- New Years' Eve

Payment:

All tuition and fees are payable for one school term only. Payment is due prior to the start of classes each term.

Tuition and fee charges are subject to change at the school's discretion. Any tuition or fee increase will become effective for the school term following student notification of the increase.

Cancellation and Settlement Policy

This enrollment agreement may be canceled within five calendar days after the date of signing provided that the school is notified of the cancellation in writing. If such cancellation is made, the school will promptly refund in full all tuition and fees paid pursuant to the enrollment agreement and the refund shall be made no later than thirty days after cancellation. This provision shall not apply if the student has already stated academic classes.

Refund Policy

If the applicant is not accepted into the program, all monies paid by the student shall be refunded. Refunds for books, supplies and consumable fees shall be made in accordance with Ohio Administrative Code section 3332-1-10.1. There is one (1) academic term for this program that is 39 contact hours in length. Refunds for tuition and fees shall be made in accordance with following provisions as established by Ohio Administrative code section 332-1-10:

A student who withdraws before the first class and after the five-day cancellation period shall be obligated for the registration fee only.

A student who starts class and withdraws during the first full calendar week of the academic term shall be obligated for 25% of the tuition and refundable fees for that academic term plus the registration fee.

A student who withdraws during the second full calendar week of the academic term shall be obligated for fifty percent of the tuition and refundable fees for that academic term plus the registration fee

A student who withdraws during the third full calendar week of the academic term shall be obligated for seventy-five percent of the tuition and refundable fees for that academic term plus the registration fee.

A student who withdraws beginning the fourth full calendar week of the academic term will not be entitled to a refund of any portion of the tuition and fees.

The school shall make the appropriate refund within thirty days of the date the school is able to determine that a student has withdrawn or has been terminated from a program. Refunds shall be based upon the last date of a student's attendance or participation in an academic school activity.

Books can be returned for refund if they are new and unused.

Complaint or Grievance Procedure

All student complaints should be first directed to the school personnel involved. If no resolution is forthcoming, a written complaint shall be submitted to the director of the school. Whether or not the problem or complaint has been resolved to his/her satisfaction by the school, the student may direct any problem or complaint to the Executive Director, State Board of Career College and Schools, 30 East Broad Street #2481 Columbus, Ohio 43215. Phone 614 466-2752; toll free 877 275-4219.

The Diet and Lifestyle Intervention Course will be offered beginning Wednesday January 19 2022 and ending Weds April 27 2022.

Enrollment Deadlines: Students must be enrolled by Friday, January 14 2022 in order to participate in this series.

Approximate Program Length: 39 Class Hours

This program is completed in 15 calendar weeks; this is a one-term program

Tuition and Fees:

Registration Fee: \$ 50.00

Tuition: \$ 695.00

Total Cost: \$ 745.00

Textbooks are listed with the course descriptions. Textbooks are not included in the cost of tuition, and students are responsible for purchasing their own books. Books are available from outside vendors such as www.amazon.com; some books are offered by the school; for a current listing check with the office.

Entrance Requirements:

Students are required to complete and submit signed enrollment forms to the Institute office, and to pay both tuition and a \$50 registration fee.

The State of Ohio Board of Career Colleges and Schools requires that all students complete a short 5-minute online Student Disclosure Course as part of the enrollment process.

The Diet and Lifestyle Intervention Course is designed for health care practitioners. Health care professionals are advised that the information learned in this course must be applied in accordance with the scope of practice for their occupation and in compliance with local state licensure laws.

Non-health care and fitness professionals may apply to take the course as well; these individuals must submit an outline detailing why they want to take the course and how they intend to use the material in order to be considered for admission.

Requirements: In addition to paying the registration fee and tuition, students must participate in the entirety of all 15 classes, and complete a final project by May 31, 2022 (project must be postmarked by that date).

Students must have an email address and access to a computer and telephone in order to take this course. Students must be able to call into a long-distance conference call number and use a passcode from their phones.

Graduation: Students who fulfill the above requirements will graduate and receive a certificate and continuing education units, if applicable.

Tardiness and absence: Classes are recorded and made available for four weeks for students who miss classes for reasons beyond their control.

Termination: Students can only be terminated from this series through non-attendance. Terminated students can attend the classes when offered again at no additional charge.

Grading System: The final project is a combination of essay questions and hypothetical clients/patients to review using the knowledge gained in the course. The final project is graded on a pass/fail basis. There is an additional exam required for earning continuing education units.

Probation for Unsatisfactory Progress: Progress in this course is evaluated through attendance during the series. Completion is based on completing the final project. There is no probationary period.

Program Description

The Diet and Lifestyle Intervention Course is designed to teach health and fitness professionals the relationship between diet and lifestyle habits and health outcomes; to expose students to professionals who are successfully using diet and lifestyle in health care delivery, and to teach specific and effective protocols for practice.

The course is taught through virtual classroom, or interactive conference call. Prior to each call, participants are instructed to read the texts and are emailed the instructor's slides and materials. The call is interactive and the participants can ask questions at any time.

Upon completion of the course, the healthcare provider will be able to:

- Critically evaluate published research in order to make better recommendations to patients about diet and health
- Better communicate with patients about the importance of diet and lifestyle when making treatment decisions, and engage the patient in more active decision-making
- Prescribe specific diet and lifestyle interventions for patients with chronic degenerative diseases, and assist those patients in reducing or eliminating medications where appropriate
- Develop relationships with providers who can assist in patient care outside of the provider's practice specialty or scope of practice
- Establish a profitable practice using diet and lifestyle as the primary intervention tools

Class Descriptions & Schedule (all classes begin at 7:00PM eastern):

Wednesday January 19

The Science Behind the Plant-Based Diet

3 credit hours

Slides and documents created by the instructor

Wednesday April 27**Children's Health****3 credits (bonus)**

- Prenatal nutrition, breastfeeding, nutrition from infancy through adolescence, common childhood conditions and treatments

Text: Materials and slides provided by instructor

Instructors

Mary Marshall

Mary Marshall, BSN, RN, has over 30 years of experience in nursing, fitness, and health coaching, and has accumulated hundreds of hours of advanced health and wellness training. She currently facilitates Wellness Forum Health's weight loss program, and teaches for The Wellness Forum Institute. Mary works in the workplace wellness department at Union Hospital in northeastern Ohio, and is President of Eat, Learn, Live, Ltd. She is certified as a WellCoach, and has extensive experience working with people on behavioral change.

Pam Popper

Pam Popper is Executive Director of Wellness Forum Health. The company offers educational programs for consumer and healthcare providers that facilitate evidence-based, collaborative and informed decision making for health-related matters.

Pam serves on the Physician's Steering Committee and the President's Board for the Physicians' Committee for Responsible Medicine in Washington D.C. She served as part of Dr. T. Colin Campbell's teaching team at eCornell, teaching part of a certification course on plant-based nutrition. She has been featured in many widely distributed documentaries, including *Processed People* and *Making a Killing* and appeared in the acclaimed documentary *Forks Over Knives*, which played in major theaters throughout North America in 2011. She is one of the co-authors of the companion book which was on the *New York Times* bestseller list for 66 weeks. Her most recent films are *Food Choices* and *The Yoyo Effect*. Her most recent books are *Food Over Medicine: The Conversation That Can Save Your Life*, and *Food Choices: The Book*.

Pam is also a public policy expert, and continually works toward changing laws that interfere with patients' right to choose their health provider and method of care. She has testified in front of legislative committees on numerous occasions, and has testified twice in front of the USDA's Dietary Guidelines Advisory Committee.

Don Rothenstein, B.S., M.B.A., Nutrition Educator

Don Rothenstein has a B.S. in Chemical Engineering and a masters degree in Business Administration from Cornell University. He is a graduate of the Nutrition Educator Program from the Wellness Forum Institute for Health Studies. Prior to developing an interest in nutrition, Don had a long and impressive career in retail merchandising, managing hundreds of millions of dollars of inventory, and

responsible for profitability, product mix, vendor relations, advertising and marketing, and pricing.

After considerable research on his own he decided to pursue formal education in nutrition in 2017, and completed an internship at Wellness Forum Health in 2020. Don writes the popular weekly "Your Nutritional Moment of Zen," available by subscription.

William Lessler, LPCC

William Lessler is a Licensed Professional Clinical Counselor and Adjunct Professor of Psychology who has been in private practice for over 10 years. He is a trained and experienced Cognitive Behavioral Therapist. Dr. Lessler has performed extensive research on the use of anti-depressant, anti-anxiety, anti-psychotic and neuroleptic drugs and has developed a model for treatment of depression, anxiety, relationship issues, bereavement, anger and other issues that does not require their use. He is one of the most effective therapists in Columbus, and one of the best teachers on the subject of the deficiencies of the psychiatric model.

Eileen Kopsaftis

Eileen Kopsaftis, MS PT received her physical therapy degree from Russell Sage College. She has practiced for eighteen years and specializes in manual techniques. Her approach is eclectic with a priority on restoring pain free biomechanics and postural symmetry. The techniques she is trained to perform are Muscle Energy, Myofascial Release, Mulligan's Mobilization with Movement, Neurofascial Release, Strain/Counterstrain, Advanced Strain/Counterstrain, Feldenkrais somatic movement, and more. Eileen is a Certified MELT instructor which is a self-treatment technique that addresses the connective tissue; improving balance, postural alignment, and pain.
